# Coordinating Care in New York: Integrating Behavioral Health

New York State has one of the best primary care networks in the country, yet the state's behavioral health services still fall behind.

## According to data from United Health Foundation's America's Health Rankings

### **New York Ranks**

**#25** in the nation for number of days adults reported poor mental health

To support the state's mental health needs, New York can build a stronger health care network through integration of behavioral health services into the primary care setting.

United Health Foundation has joined forces with New York's Regional Primary Care Network, and committed \$1.5 million to expand behavioral health services at Genesee Health Services at Rochester Regional Health, Rushville Community Health Center, and Utica Community Health Center.

# Integrating Behavioral Health in the Primary Care Setting

TRAINING STAFF to deliver culturally sensitive interventions, to meet the community's behavioral health needs.

1	<u> </u>

**BUILDING INFRASTRUCTURE** 

to fully integrate care to give primary care providers everything they need to provide mental health and substance abuse screening and intervention.

**INTEGRATING NEW INTERVENTIONS** into RPCN's continuous quality improvement process, to measure success and ensure the sustainability of all behavioral health services.

## The Program at a Glance

## Mental Health Services

#### **Substance Abuse Intervention**

- Screening is an important first step for intervention RPCN screens teens and adults for depression in the primary care setting, and connects patients with resources for treatment.
- In 2016, RPCN provided 1,616 on-site behavioral health appointments.
- RPCN's program is equipping community health centers with the training and resources needed to screen for drug and alcohol abuse disorders, and to connect patients with the best possible interventions.
- Between 2015 and 2016, Genesee Health Services at Rochester Regional Health more than doubled the number of substance abuse screenings for adults in their network.

INCREASE IN Depression Screening 2015-2016 **107%** Genesee Health Services at Rochester Regional Health

**206%** Utica Community Health Center

72% Rushville Community Health Center

Behavioral Health Integration has allowed us to break down the barriers and stigma associated with those who need mental health services and fosters an environment of team-based collaboration between patients and providers. MICHAEL LEARY | CEO, RPCN
