Overview of U.S. Benefits

When you join our company, you embark on an inspired career journey and join a collaborative team energized by a common cause. We help people live healthier lives — and that extends to our team members.

**Caring.
Connecting.
Growing together.**

Your health and happiness matter to us. We offer well-being benefits, programs and resources to help you be your best at work, at home and in your community.

For team members in the U.S., this brochure highlights some of our most used benefits and those you must enroll in, but there's so much more. Visit unitedwellbeing.uhg.com to see all the ways we support your total well-being.

We have four different benefit packages depending on the business you work in — your recruiter can tell you which package you are eligible for.

Physical

Health Plans and Other Insurance Coverage

Medical

Choose between two types of medical plans — copay and HSA plans. Both are designed to deliver value and provide comprehensive coverage.

- With a **copay plan**, you pay a flat fee for a specific health care service. Costs can be more predictable, and your upfront out-of-pocket costs can be lower with this type of plan. Some copay plans are network only, meaning there is no out-of-network coverage except for emergency services or as required by law.
- With an **HSA plan**, you must first meet a deductible before the plan will pay for a covered health care service (except for in-network preventive care). Once you've met your annual deductible, the plan will pay a percentage of the cost of a covered service (known as “coinsurance”). Costs can be less predictable, and your upfront out-of-pocket costs can be higher with this type of plan. You can see in- or out-of-network providers.

These plans partner with a Health Savings Account (HSA), which you can use to pay for eligible expenses on a tax-advantaged basis now and in the future. We contribute to your HSA, and you can also put your own money into the account by making pretax payroll contributions, up to IRS limits.

Medical plan availability is generally based on your legal employer and home ZIP code. All plans cover in-network preventive care at 100%, offer access to high quality providers, and include prescription drug coverage and free or low-cost 24/7 Virtual Visits.

Dental

In-network preventive services, such as cleanings, covered at 100%. You can receive care from any provider, but you'll pay less with a network dentist.

Vision

Coverage for your eye care needs. You can see any vision provider, but you'll pay less if you use a network provider.

Life Insurance and Accidental Death & Dismemberment (AD&D)

Financial protection in the event of a serious accident or death. You automatically receive company-paid Employee Basic Life Insurance and AD&D, and you may be eligible to purchase the following coverage:

- Employee Supplemental Life Insurance and AD&D
- Spouse or Domestic Partner Life Insurance and AD&D
- Child Life Insurance

When it comes to your physical well-being, we offer comprehensive health plans and other insurance coverage, plus ways to make it easier to incorporate healthy choices into your day.

Whether you're looking for support with chronic conditions, fitness, healthy eating or quitting tobacco, we have programs and resources to support you and those you care for.

Physical, continued

Short- and Long-Term Disability Insurance

Financial protection if you aren't able to work for an extended period of time due to an illness or injury. You automatically receive company-paid Short-Term Disability (STD) and Long-Term Disability (LTD) coverage equal to 60% of your benefit compensation, up to plan maximums.

Critical Illness Insurance

Financial support if you are diagnosed with a covered critical illness, such as cancer, heart attack or stroke. Pays a lump sum amount to help you pay out-of-pocket medical and living expenses.

Accident Insurance

Pays a fixed benefit amount to offset costs associated with treatment of specific injuries due to an accident, including concussions, dislocations, broken bones or burns. An additional benefit is payable if the injury is due to an organized sport.

Hospital Indemnity Insurance

Hospital Indemnity Insurance provides financial support for a hospital admission and subsequent stay. If you or a covered family member is admitted to a hospital, the plan pays a lump sum amount to help you pay out-of-pocket medical and living expenses of your choice.

Business Travel Accident Insurance

Financial protection if you experience a covered accident or illness while on company business travel. You automatically receive company-paid Business Travel Accident Insurance.
